APPENDIX A – SPECIAL CONSIDERATION FORM

INTRODUCTION

Hockey PEI'S Program of Excellence Policy Manual specifies two situations in which a player can apply for special consideration for participation in the next step of the process. These situations are:

1.) Injury / Illness - a player is physically unable to participate in a particular step in the program due to either an injury or illness. Players are deemed to have qualified for this criteria when they provide a written medical excuse signed by a doctor; or

2.) Compassion - this includes any and all special situations that may arise where compassion is necessary. The responsibility of determining whether or not a player qualifies for consideration through compassion rests with Hockey PEI and the POE Coordinator. Examples of compassion are: death in the family, serious illness / accident in the family, unable to attend due to being away at school or attending an elite sporting event.

APPLICATION
